## Summary

- Accomplished Program Manager with extensive experience in overseeing and executing projects involving HTML, CSS, JavaScript, and Python. Adept at managing cross-functional teams, ensuring timely delivery of high-quality web applications, and implementing best practices in web development. Skilled in both front-end and back-end technologies, with a proven track record of driving successful project outcomes through strategic planning, innovative problem-solving, and effective stakeholder communication.

## Experiences

### PROGRAM ASSOCIATE

Muskaan Dreams 2023–present

- **Program Associate with Expertise in Web Development and Government Sector Leadership:** Experienced Program Associate with a strong background in web development using HTML, CSS, JavaScript, and Python, complemented by leadership roles in the government sector, particularly in K-12 school education. Notable achievements include spearheading the STARS project, funded by The World Bank and overseen by the Central Ministry of Education.
- **Leadership Experience:** Spearheaded large-scale projects in the government sector, focusing on K-12 education.
- Led the successful implementation of the STARS initiative, a significant project aimed at strengthening teaching, learning, and results for states.
- **Funds Management:** Ensured timely disbursement of funds by streamlining processes.
- **Stakeholder Engagement:** Fostered strong relationships with key stakeholders, including government officials, educators, and state program management unit, to facilitate the successful implementation of the STARS project.
- **Performance Monitoring:** Implemented robust monitoring mechanisms to track the progress of the STARS project and ensure alignment with established goals and objectives.
- **Team Capacity Building:** Conducted capacity building programs for educators, administrators and SPMU to enhance their skills and understanding of the project.

### CODE TO ENHANCE LEARNING

Training Program- 2022-2023

- **Coding Projects:** Implement robust monitoring mechanisms to track the progress of the STARS project and ensure alignment with established goals and objectives.
- **Project on Coding:** Utilizing HTML ,CSS, javaScript, and python to develop educational tools and resources, contributing to innovative teaching methods and improved learning experiences.
- **Video Editing:** Regularly reviewed and monitored the progress of environmental initiatives to ensure they are on track to meet their objectives.
- **Youtube videos on Coding:** Identified areas of policy improvement and provide necessary recommendation to state.
- **My diffrent project on web designing:** Engaged with various stakeholders, including government officials, NGOs, Schools, and citizens, to gather feedback and improve service delivery.
